

ROLLIN TOWNSHIP WEBSITE POLICY

The purpose of the Rollin Township website is to promote the programs, services, policies, and objectives of the Township and to share information with the community.* Content is aimed at providing (1) information that will enable residents of the Township to have more effective access to local government, and (2) accurate, up-to-date information to residents during emergencies. Information that is not confidential and is available at the Township Hall may be posted for electronic access through the Township Website.

This policy specifically addresses updating procedures, links and informational announcements on the site, and who is responsible for the content of certain areas of the site.

The webmaster will post all information to the site. This will include routine business documents, such as township government-related meeting announcements, agendas and minutes for all boards or committees. Routine business may also include: decisions made by the board that are included in the board minutes, anything required to be posted on door of township hall, openings for positions on township committees, public hearings, and anything required by law, regarding township business, to be published in the newspaper, and township, school, and county election dates. Related election information will only be on the election page and a link to that page will be included on the announcement page.

Minutes will be submitted to the webmaster for posting within five (5) business days after boards and committees meet. All other updates will be made at least every two weeks. The clerk (sewer, election pages), assessor (property tax valuation), and treasurer (tax information) are responsible for the content of those pages with the supervisor's consent. Non-routine information must be posted with the consent of the supervisor.

The webmaster will forward all e-mails received through the website to the appropriate township official. A copy will also be sent to the township supervisor. A community calendar will be created monthly for posting on the website and for distribution via the township e-mail directory. Prior to distribution and posting on the website, the calendar will be sent to the supervisor and other township officials and committee chairpersons, asking for input. The calendar will be distributed at the end of the previous month.

At least twice monthly the webmaster will back-up the current version of the website on the township computer using a flash drive. The back-up will be kept at the township hall. The password and procedures for accessing the website internet service provider and webmaster e-mail program will be given to the township clerk in a sealed envelope to be stored in the township safe.

Unauthorized attempts to change information on this website are strictly prohibited and may be punishable under state and federal laws including the Computer Fraud and Abuse Act of 1986 and the National Information Infrastructure Protection Act.

The Township's website contains links to other sites, which allow site users to leave the Townships site. The Township cannot and does not make any representation about these

sites or the materials and/or information available there. The fact that the Township made these links available is not an endorsement or recommendation by the Township of any of these sites. Objectionable material on any Township site pages or on any linked page, shall be reported to the webmaster immediately, who will notify the township supervisor.

Rollin Township respects the value of providing contact information to community resources. When organizations make an official request to the Township for inclusion on the Township website, the township supervisor will review the request to determine its relevance and appropriateness.
